

Aura Crest Greens

Resident Handbook & Operational Guidelines

1. Welcome

This handbook is a mock reference document created strictly for the development, training, and knowledge-base testing of the resident RAG (Retrieval-Augmented Generation) chatbot framework. All policies, timings, rules, and parameters detailed herein are fictional and subject to programmatic modification.

2. Community Overview

Aura Crest Greens is a premium gated residential apartment community comprising approximately 6 high-rise residential towers, landscaped central gardens, a dedicated community clubhouse, a fully equipped gymnasium, a swimming pool, a children's play area, outdoor badminton courts, and a multipurpose hall.

3. Resident & Family Registration

- The primary resident holds primary administrative control over the individual apartment unit profile within the community ecosystem.
- Primary residents have authorization to add immediate family members as permanent residents through the central resident application portal.
- Upon successful registration, each family member receives distinct digital access credentials, permitting them to independently generate passes and reserve community assets.

4. Vehicle & Parking Registration

- Primary residents are permitted to register a maximum allotment of two cars and two two-wheelers per apartment unit.
- All successfully registered vehicles are digitally linked within the database to the apartment's permanently assigned physical parking slot.
- Any temporary, unregistered, or guest vehicles brought in by residents will require a standard visitor pass to clear the automated gate boom barriers.

5. Visitor Management (Day Passes)

- Residents can instantly generate a secure, QR-based Visitor Pass via the mobile application to share with incoming guests.

- The generated QR code functions explicitly as a single-day pass and is valid strictly for the selected date and time window.
- Visitors must present the active QR code at the main gate scanning terminal to gain entry to the estate.
- Any overnight visitor stays require prior resident registration and explicit system approval before 10:00 PM on the night of arrival.

6. Domestic Staff & Daily Workers

- Residents can register frequent external service providers, including maids, cooks, drivers, and caretakers, to their unit profile.
- The system issues a dedicated access QR pass bound strictly to recurring, timed operational slots (for example: Monday through Saturday, 8:00 AM – 12:00 PM).
- Entry attempts by daily workers outside their pre-approved time windows will be automatically blocked at the gate barriers and require immediate manual resident confirmation via the application.

7. Delivery Personnel

- Food, e-commerce, and parcel delivery personnel are granted temporary estate access only after the resident explicitly confirms the entry notification broadcast.
- All delivery operations must be completed, and the delivery personnel must exit the premises, within a strict 30-minute window from the initial timestamp of entry.

8. Clubhouse & Multipurpose Hall

- The central community clubhouse operates daily from 6:00 AM to 10:00 PM.
- Residents can reserve the multipurpose hall for private events up to 30 days in advance via the facility module of the application.
- A standard refundable security deposit applies to all private hall bookings to cover potential property damages.

9. Gym & Swimming Pool Regulations

- **Gymnasium Hours:** Open daily for resident use from 5:30 AM to 10:00 PM.
- **Swimming Pool Hours:** Open daily for resident use from 6:00 AM to 9:00 PM.
- **Safety Mandate:** Children under the age of 12 must be accompanied by a responsible adult at all times while inside the swimming pool enclosure.

10. Parking Regulations

- Residents must park their vehicles strictly within their designated, permanently allotted parking slots. Unauthorized parking in adjacent slots is prohibited.
- Visitor parking space is structurally limited and operates entirely on a first-come, first-served basis.
- The maximum allowable speed limit for all motorized vehicles inside the community perimeter gates is **15 km/h**.

11. Pet Policy

- Domestic pets are permitted within the community premises, subject to civic guidelines.
- Dogs must remain securely on a leash at all times when passing through common walkways, lobbies, or landscaped gardens.
- Pet owners are solely and legally responsible for immediately cleaning up and sanitizing after their pets in all common areas.

12. Noise & Quiet Hours

- Official community quiet hours are strictly enforced daily from 10:00 PM to 6:00 AM.
- Loud music, large social gatherings, and residential interior structural construction or drilling activities are strictly prohibited during this period.

13. Maintenance Helpdesk

Residents can log service tickets directly through the chatbot or application portal. Supported operational categories include plumbing, electrical issues, lift malfunctions, water supply disruptions, and common estate housekeeping.

14. Emergency Procedures

- In the event of a fire or structural emergency, residents must immediately evacuate using the designated emergency staircases. The use of elevators is strictly prohibited.
- Residents should contact gate security immediately using the emergency intercom button or physical breakdown switches.
- The designated emergency assembly point for all towers is the central lawn/garden area.

15. Security & Surveillance

- 24/7 high-definition CCTV surveillance is active across all common areas, tower elevator lobbies, and peripheral entry/exit points.
- Security personnel reserve the right to manually verify any visitor's identity if system anomalies occur.

- Tailgating through automated vehicle boom barriers or pedestrian access gates is strictly prohibited.

16. Frequently Asked Questions (FAQs)

Q: How do I create a visitor pass?

A: Open the resident application, navigate to the 'Visitors' section, choose the expected date and time slot, generate the secure QR code, and share the dynamic link directly with your guest.

Q: Can my maid enter the society on Sundays?

A: Entry will only be permitted if Sunday access has been explicitly enabled in their recurring profile schedule within your application settings.

Q: How do I book the clubhouse hall?

A: Navigate to the 'Facilities' section in the resident application, verify slot availability for your targeted date, submit the required refundable security deposit, and confirm the reservation block.
